For each knot in Problem 1, draw a non-orientable spanning surface.

④ Calculate the linking number of the following links.

①

b

c

5 Show that the following knots are same using isotopies and Reidemeister moves.

⑥ Download KLO (Knot-Like-Objects)

KLO-software.net

and play around with it.

⑦ Check

Knotinfo.math.indiana.edu

At the top bar

there is an option for links.
